	Fertiliser Products	App Notes	TOTAL	Non Fertiliser	App Notes	TOTAL
Start APRIL						
	Vitax Enhance 15-2-8 Spring and Summer @ 30g/sq mt		1.5 bags			
Mid				Revolution wetting agent	1 It in 25lt water = 500m2 2 tanks	2 lts
End						
Start MAY	Prestige Folia 14-3-7	1 lts in 25 lts water = 500m2	2 lts			
	Plus 250 ml Aminosorb F in 25 lts water = 500m2 2 tanks		500 ml			
Mid				Revolution Wetting agent	1 It in 25lt water = 500m2 2 tanks	2 lts
				Plus Aquatrols Attain	500ml in 25 lts water = 500m2	1 lts
End						
Start JUNE	Prestige Folia 14-3-7	1 lts in 25 lts water = 500m2	2 lts			
	Plus 250 ml Aminosorb F in 25 lts water = 500m2 2 tanks		500 ml			
Mid				Revolution Wetting agent	1 It in 25lt water = 500m2 2 tanks	2 lts
				Plus Aquatrols Attain	500ml in 25 lts water = 500m2	1 lts
End						
Start JULY	Prestige Folia 14-3-7	1 lts in 25 lts water = 500m2	2 lts			
	Plus 250 ml Aminosorb F in 25 lts water = 500m2 2 tanks		500 ml			
Mid				Revolution Wetting agent	1 It in 25lt water = 500m2 2 tanks	2 lts
				Plus Aquatrols Attain	500ml in 25 lts water = 500m2	1 lts
End						
Start AUGUST	Prestige Folia 14-3-7	1 lts in 25 lts water = 500m2	2 lts			
	Plus 250 ml Aminosorb F in 25 lts water = 500m2 2 tanks		500 ml			
Mid				Revolution Wetting agent	1 It in 25lt water = 500m2 2 tanks	2 lts
				Plus Aquatrols Attain	500ml in 25 lts water = 500m2	1 lts
End						
Start SEPTEMBER	Prestige Folia 14-3-7	1 lts in 25 lts water = 500m2	2 lts			
	Plus 250 ml Aminosorb F in 25 lts water = 500m2 2 tanks		500 ml			
Mid				Revolution wetting agent	1 It in 25lt water = 500m2 2 tanks	2 lts
End						

The above programme should be used in conjunction with a regular aeration programme to maximise results.

NOTES: 1) Mix 1 is Revolution plus Farmura Combi or Farmura Attain. 2) Mix 2 is Prestige Folia plus Amino-Sorb F. 3) Keep spiking every 2 weeks (as long as ground not frozen or in drought) and scarify regularly (as long as active growth is taking place) to reduce density, remove thatch and dead weak grasses. 4) Apply Heptasol @ 600g per 25 lts to colour and harden green or at 1 kg per 25 lts water to help with disease and for moss control. 5) Cutting height cut @ 6mm through April then lower to 5 mm at the start of May. 6) Wash in or rainfall following Revolution / Attain applications to wash off leaf.
